Tips for the road

- Plan ahead and follow all the signs throughout the route. This is the Cyan Walk so please follow the Cyan signs. It is very easy to get distracted by the surrounding scenery while riding your country walk. Short cuts are to be avoided as many fields are privately owned. You will encounter many IDT signs meaning ‘Reserve’. The markings indicate private property.

- The Maltese is the official language of the Maltese Islands and an official EU language. The Maltese language is spoken only on the Maltese Islands. Road signs in Maltese are in Maltese. Some basic translations that will help you throughout the walk:
  - St. Paul Street: Vjal St. Paul
  - Vjal Street: Vjal Street
  - Vjal X-X: Vjal X-X
  - Vjal X Street: Vjal X Street

- Keep in mind that in the Maltese Islands cars drive on the left hand side.

- In some of the walks you will come across churches and other places of religious devotion. Please keep in mind that these are places of worship and due respect must be given if approaching or entering such places. One should not wander in such places if an official religious function is under way.

- Be Prepared - You are required to wear a comfortable pair of walking shoes and clothing which is appropriate for the time of the year. Allow enough time to complete the walk in broad daylight. Make allowances for time required for rest points, taking photographs and observing nature and places of interest.

- Bird-trapping and hunting are practised in the countryside. There are, however, strict regulations determining where such activities are permitted and the time of the year when no such activities are allowed.

- Off-tops are magnificent areas but they also present potential hazards. Always keep a safe distance from the off-tops, especially on windy days, if the ground is covered by snow or ice as slip danger is due to rain.
